RE : PALLETIZATION OF CONTAINERIZED CARGO INTO NIGERIA

Following the revised import and export guidelines issued by Nigerian Federal Government, all containerized import cargo destined for Nigeria should be palletized. This new guideline goes into effect from 1st of January 2018 (time of departure) for all Nigerian inbound cargo departing from worldwide origins.

We kindly advise that you can comply with the new guideline, as failure to comply may result in re-shipment of container and any penalty and surcharge involved with non-compliance shall be borne by the local consignee.

Further directives and guidelines on the palletization concept are expected from the Federal Ministry of Finance/Nigerian Customs Service in the coming days.

Yours sincerely,
COSCO Shipping Lines/ LATD
